

Can you eat your house? Abilities Mix and Match

Instructions for teachers

Staple the pages together and cut along the dotted lines so that you have a book with each page split into three. Students take turns making crazy questions that must be answered by “No, I can’t” and changing their partner’s questions into ones that someone might say “Yes, I can” to. All the options have at least one good match and at least one crazy match.

As a variation, you can also cut the pages into cards to be put together to make the same kinds of questions.

Can you

bring me

a tree?

Can you

catch

a bicycle?
