

### Classroom treasure hunt (Prepositions of position)

Choose a colour and your teacher will give your team a worksheet on that kind of paper. Write hints, cut up the worksheet, and stick hints 2 to 10 around the room face down in the positions you have written. Give hint 1 to another team and time them as they go around the room following the clues in order. Add 30 seconds every time they touch a hint at the wrong time. The quickest team and the team that made the most difficult treasure hunt win.
