

### Clothes possessive S drawing game

Photocopy and cut up one pack of cards per class or group of three or four students. Draw a boy, girl, teddy, cat, rabbit and teacher on the board or large piece of paper, or ask each group to do so. Students take turns making sentences from the cards so that they can add those things to the picture. Alternatively, they can make sentences for other people such as their teacher or their partners to draw.

When you have finished the game, you could let students make another pack of cards with different animals etc on so that they can play the game again. They can also swap packs with other groups.
