- Would you wever...?

Try to work out reasons for the spellings above, then compare your generalisations as a class.

Take turns asking each other three personal questions made from question stems above, not looking above when it's your turn to answer. The person asking questions should try to say them quickly enough to sound like the natural pronunciations above, but you can ask for them to be repeated more slowly and/ or be rephrased before you answer if you like.

Ask about any question stems above that you couldn't make questions out of, questions that you are not sure you answered well, etc, working together to make suitable questions and answers each time.
