

## Countable and Uncountable Nouns- Answer Me

### Warmer – Countable and uncountable nouns- Make me say Yes

*Ask personal yes/ no questions with countable or uncountable nouns and numbers or amounts like those in the table below to try to get positive answers from your partner. You get one point if your partner says “Yes, (there is/ there are/ I do)”, but no points if they say “No, (there isn’t/ there aren’t/ I don’t)”, “Actually, I...”, “I don’t know”, etc.*

**Optional extension:** *Play the same game, but this time with one point for “I don’t know” answers.*

### Countable and uncountable nouns- Answer me card game

*Deal out the pack of cards. Ask each other questions like the Yes/ No questions above or “How much/ many...?” questions to try to get answers from your partner that are written on your cards. If your question is grammatically incorrect, they can reject your question and play passes to the next person. If your partner answers with one of the things on your one of your cards, then you can place that card down on the table and score a point. The winner is the first person to get rid of all their cards, or the person with fewest cards left when the teacher stops the game.*
