

Feelings Drawing Games- with a and an practice

Instructions for teachers

Cut up one set of cards per class or group of two to four students, choosing suitable sets of feelings and nouns from below, or making up similar cards with different words with the gapped cards. You can remove cards with "an" and/ or "-s" if you haven't taught those points. With those cards, students can:

- Race to shout out the name of what the teacher or another student is drawing (looking at the list to help if they need to)
- Race to draw what the teacher or another student holds up and/ or shouts out
- Compete to make the best picture of what is held up and/ or shouted out (within the time limit)

Students can then make their own cards with the same or different adjectives to play the same game(s) with.
