

When am I going to guessing game

Choose a future action you're going to do, e.g. your next meal or next party. Make a question about when you are going to do it like one in the top box if you know what time or in the lower box if you only know what day/ date. See if your partner can guess the right time or day, then give hints like these until they get exactly the time you're thinking of: "(No) (I'm going to do that) much much earlier/ much earlier/ a little earlier/ a little later/ much later/ much much later"
