

IELTS Writing Task 2- Prepositions and Determiners Pairwork

*Work as a group with one Student A and one Student B worksheet in each group, with two students working together as Student A or Student B if there are three people in your group. Don't show your worksheets to each other. Choose one of the sections below and read examples from it with the same word in **bold** missing until your partner guesses the missing word. They can only guess once per hint. If you run out of examples before they guess correctly, make up other example sentences with the same missing word, including non-IELTS ones if you can't think of any more IELTS examples. When they have guessed correctly, read out the ones that they got wrong so they can hear the correct answers, then guess your partner's missing word in the same way. Continue taking turns until your teacher stops you.*

Ask about any of your phrases or your partner's phrases which you are not sure of the meaning of, think could have another word in the place in bold, etc. Then switch worksheets and do the same, making sure that you start with the most difficult examples this time.
