

Jobs- Drawing Game

Choose one of the sentences below and draw that thing until your partner guesses the whole sentence. Other sentences on the same line are also okay, but if they say anything not on that line then keep drawing until they say the right thing. You can draw symbols, circle the important parts of the picture, etc, but you can't write words and you can't speak. If your partner still can't guess, let them look at the whole list below.
