

Likes and dislikes categories game

Tell your partner what kind of things you like or dislike with expressions on the left below. They will then try to guess an example of that kind of thing that you feel that way about to get points, with sentences like those on the right below. For example, if you say "I hate big animals", they can ask "Do you like gorillas?" to try to get the answer "No, I don't". Then take turns doing the same.
