

Likes and Dislikes- Guessing Objects

Warmer

Spin something such as a pen. Ask other students about the person who it is pointing at with questions like “What’s his favourite game?” and “Does she like skiing?”

Describing what likes and dislikes things game

Choose one of the things below but don’t tell or show anyone else. Give hints like those on the last page about who or what likes or dislikes that thing until your partner guesses what you have chosen. All hints must be about other people and things, so mustn’t be “I...” or “My favourite...”. Your partner(s) can only guess once per hint. If you are scoring, you get five points if they guess first time, four points if they guess right the second time, etc, so please choose an easy one and give the best hints that you can.

Make a statement using the table on the last page below and work together to think of things that match what you said.

Table or cards to choose objects from

ball/ basketball	bamboo	banana	bedroom
beer	blood	blue	bone
bread	cake	carrot	cheese
chip/ French fry	chocolate	coffee	comic
computer game	fish	fly	green tea
