

Meeting people and meeting people again Response Matching

Teacher's instructions:

Cut up the worksheet so that the left hand column is in a strip and the right three columns are cut into individual cards. Students must match the responses to the questions on the left, perhaps after brainstorming possible answers. To help them complete the task, you could tell them that each one has three answers.

Give them a complete version of the worksheet to check their answers, and then ask them to rehearse similar dialogues in pairs. They can then put it all together in complete dialogues, e.g. mingling and meeting people at a conference.
