

Nationality Words- *like* and *don't like* bluffing game

Instructions

Make a statement using words from below. You can either say something that is true or use your imagination. Perhaps after asking for more details with questions like "Why do(n't) you like it?" and "When did you try it?", your partner will guess if what you said is:

- True (= You really do like it if you said you like it or really don't like it if you said you don't like it)
- False (= Just your imagination, for example you don't like when you said you like it or you said you don't like it but you've never tried it)

Play the same game, but this time (secretly) flip a coin and:

- Say "I like..." if heads comes up
- Say "I don't like..." if tails comes up

Play the same game, but this time with countries and/ or topics which are not below.

Nationality words presentation

Without looking at the other page for now, write the nationality adjective for each of the nouns below.

Africa	America
