practise			

Say some things that you found in common and see if that is also true of anyone else in the class.

Which two different present tenses can you use with the time expressions above, e.g. in the sentences you made in the game?

Without looking above for now, put time expressions into the two columns in the table below.

Time expressions with Present Simple	Time expressions with Present Continuous

Look above and write more things in the table above.

Check your answers with your teacher.
