

Present Simple Third Person Routines Pairwork Information Gap
Present Simple/ Saying times in English

Student A

Work in pairs, without showing your worksheet to your partner. Ask questions to be first to find the five times when the boy and the girl do the same action (his action = her action) at the same time (his time = her time). To help you ask the right questions, think about what things 11-year-old children from different families often do at the same time, and what things happen when.
