

Travel and Tourism Recommendations- Numbers Practice

Look at the page below that your teacher tells you to. Ask for a recommendation related to one of the lines on the worksheet and listen to your partner's/ partners' recommendation(s) for travellers. Ask for more details, give feedback and/ or share your own ideas, and respond positively or politely respond negatively to their suggestions. Then switch roles and do the same with your partner's choice of a line from below. Continue taking turns asking for, giving and responding to recommendations until your teacher stops you.

Suggested follow-up questions

How big
How can I get to
How cold
How far
How heavy
How high...?
How hot
How humid
How long
How many
How many percent
How much
How much does... weigh?
How often
How strong
How tall...?
How wide
What percentage
What temperature
What time
When
Where
Which month
Which season

Ask about any situations, numbers, etc below that you don't understand or can't imagine a recommendation for, discussing your recommendations each time.

Look at the figures version of the worksheet. Read out one line, including the number if one is included. Your partner will help you if they think you pronounced the number wrongly or if they can think of another way of saying the same thing. For the lines which have no figures, think of example numbers after reading out the line, e.g. "one dollar twenty (cents)" for "cheap breakfast".

Figures version

- 1 1/2 days at the beginning of the month after next
- 3 3/4 hours free in the afternoon
